

Correction to "Distributions of Pigments and Primary Production in a Gulf Stream Meander" by Steven E. Lohrenz et al.

In the paper "Distributions of pigments and primary production in a Gulf Stream meander" by Steven E. Lohrenz, John J. Cullen, David A. Phinney, Donald B. Olson, and Charles S. Yentsch (*Journal of Geophysical Research*, 98(C8), 14,545-14,560, 1993), equation (2) was printed incorrectly. The correct equation appears below.

$$P_{\max}^B = P_s^B [\alpha / (\alpha + \beta)] [\beta / (\alpha + \beta)]^{\beta / \alpha} \quad (2)$$
